"We had a good Captain in charge and

that is one reason we Missourians came out of the contest victorious," declared Mr. Dockery Wednesday in speaking of Chair-man J. M. Seibert. He gives no small credit to the executive ability of the chair-man of the State Committee and his corps of assistants, who have been stationed at St. Leuis in the campaign. Others have complimented Mr. Selbert on the excellent

she ing made in the State.
Fig additional returns were received yestermy from the State. Secretary Harry Edwards declared last night before leaving for Jefferson City that Mr. Dockery's ma-jority would be in the neighborhood of 22,500. This is almost conceded by Chairman Akins of the Republican State Com-mittee. The latter is making desperate ef-forts to cut that majority down to less than forts to cut that majority down to less than 20,009, but so far has not been able to do so. There are a large number of wagers posted on 20,000 which have not yet been settled, and it is probable the official returns will be waited for to determine these. The telegrams in some instances may not be entirely correct, and there is some doubt felt as to the exact figures.

Al Morrow, who has served the State Committee in the capacity of stenographer for the third campaign, departed yesterday for Jefferson City to resume his duties in the Governor's office. Mr. Morrow has made a reputation as one of the best-posted politicians in the Saite, and his work was valuable throughout the campaign for this reason.

There is an Italian saloon and restaurant at this number, and fearing that the police might make a descent on the place, the proprietors requested their anarchistic friends to go eigewhere. They went to another saloon near by but here again they were not welcome, the proprietor declaring that they would ruin his business.
